

City Dock Guidelines

Deliveries during the day requiring large trucks and heavy duty dollies must be made via the Bullington Street Truck Terminal which is managed by the City of Dallas 214-670-5878 and serves as Republic Center's loading dock. The dock entrance is at Patterson and Akard Streets and is open from 6:30 AM to 5:00 PM Monday through Friday. Height restriction is 14'2" and length of 34'. No double hitch trucks allowed.

Time limit in the terminal is restricted to thirty (30) minutes. However, extended time can be scheduled after 1:00 PM by contacting the Terminal directly or making arrangements through the building management office. Requests for use of the terminal outside normal operating hours must be scheduled (24) hours in advance at a two (2) hour minimum cost. Failure to make the reservations in advance can result in the City assessing a fine and/or towing the vehicle.

The Republic Center building entrance is at the back left of the terminal near bays 42 and 43. Using the freight elevator located at the dock, proceed to "2B" and once on that level follow the yellow line / strip leading to the building's freight elevator. Use of the freight elevator requires reservations in advance through the Management Office.

If you have any questions concerning the city dock, please do not hesitate to call the Management Office at 214-965-8600.

The dimension and limitation of Republic Center's freight elevator is listed below:

Freight Elevator #4
